

AIC Reno is Moving!

AIC

Always Moving Forward!

AIC has once again outgrown our facility! And this time in just three and half years! In April, we will be doubling our current size and moving to Suite 104 and ten thousand square feet. In fact as we speak they are building out the office space that was in Suite 104 and expanding it to meet our needs; and yours. Our new facility will be able to better serve you with increased customer support, engineering services, and manufacturing space. AIC is Always Moving Forward, and will continue to be your single source for your automation and control needs. AIC remains the largest and best equipped controls distributor and controls integrator in the entire state of Nevada. We look forward to serving you in our new offices. Look for our Open House later this year!

Here is our new address and contact information. Please make note of it. And if you are in the neighborhood, please stop in and say hello!
